

# SAFETY DATA SHEET

<b>SECTION 1.0</b>	<b>PRODUCT AND COMPANY IDENTIFICATION</b>
--------------------	---

**Product Identifier**

UNINAP® 300 AC

**Other means of identification**

Base oil - unspecified; Distillates, petroleum, hydrotreated heavy naphthenic; Hydrotreated heavy naphthenic distillate, solvent extract, petroleum; Mineral oil, petroleum distillates, hydrotreated heavy naphthenic; Mineral oil, petroleum distillates, hydrotreated (severe) heavy naphthenic; Distillates (petroleum), hydro-treated heavy naphthenic; Hydrotreated heavy naphthenic distillate solvent extract (petroleum); OILS, MINERAL, HEAVY NAPHTHENIC, HYDROTREATED; OILS, NAPHTHENIC, HYDROGENATED; SEVERELY SOLVENT REFINED HEAVY PARAFFINIC DISTILLATES; HYDROTREATED LIGHT PETROLEUM DISTILLATE

**Recommended use (identified)**

Petrochemical industry: Petroleum refining. Naphthenic Lubricant.

**Uses Advised Against**

None known.

**Manufacturer/Importer/Supplier/Distributor Information**

UniSource Energy, LLC.  
40 Shuman Blvd, Suite 290  
Naperville, IL 60563

**E-mail**

orders@unisource-energy.com

**Telephone number**

Phone: 630-470-6030 Fax: 630-470-6031

**Emergency telephone number**

UniSource Energy, LLC.  
1-800-444-5510

CHEMTREC  
1-800-424-9300

<b>SECTION 2.0</b>	<b>HAZARD(S) IDENTIFICATION</b>
--------------------	---------------------------------

**OSHA/HCS status**

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

**Classification of the substance or mixture**

Not classified.

**Signal word**

No signal word.

**Hazard Statement**

No known significant effects or critical hazards.

**Precautionary Statement**
**Prevention**

# SAFETY DATA SHEET

Not applicable.

**Response**

Not applicable.

**Storage**

Not applicable.

**Disposal**

Not applicable.

**Hazard(s) not otherwise classified (HNOC)**

None known.

## SECTION 3.0

## COMPOSITION/INFORMATION ON INGREDIENTS

**Substance/mixture**

Substance

**Chemical name**

Distillates (petroleum), hydrotreated heavy naphthenic

**Other Means of Identification**

Base oil - unspecified; Distillates, petroleum, hydrotreated heavy naphthenic; Hydrotreated heavy naphthenic distillate, solvent extract, petroleum; Mineral oil, petroleum distillates, hydrotreated heavy naphthenic; Mineral oil, petroleum distillates, hydrotreated (severe) heavy naphthenic; Distillates (petroleum), hydro-treated heavy naphthenic; Hydrotreated heavy naphthenic distillate solvent extract (petroleum); OILS, MINERAL, HEAVY NAPHTHENIC, HYDROTREATED; OILS, NAPHTHENIC, HYDROGENATED; SEVERELY SOLVENT REFINED HEAVY PARAFFINIC DISTILLATES; HYDROTREATED LIGHT PETROLEUM DISTILLATE

**CAS number/other identifiers**

Ingredient Name	%	CAS number
Distillates (petroleum), hydrotreated heavy naphthenic	100	64742-52-5

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

Occupational exposure limits, if available, are listed in Section 8.

## SECTION 4.0

## FIRST AID MEASURES

**Description of necessary first aid measures**

**Eye contact**

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**Inhalation**

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Skin contact**

# SAFETY DATA SHEET

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

## Ingestion

Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

## Most important symptoms, acute and delayed

### Potential acute health effects

#### Eye Contact

No known significant effects or critical hazards.

#### Inhalation

No known significant effects or critical hazards.

#### Skin Contact

No known significant effects or critical hazards.

#### Ingestion

No known significant effects or critical hazards.

### Over-exposure signs/symptoms

#### Eye Contact

No specific data.

#### Inhalation

No specific data.

#### Skin Contact

No specific data.

#### Ingestion

No specific data.

## Indication of immediate medical attention and special treatment needed

### Notes to physician

Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

### Immediate medical attention, special treatment

No specific treatment.

### Protection of first-aiders

No action shall be taken involving any personal risk or without suitable training.

See Toxicological Information (Section 11)

## SECTION 5.0

## FIRE-FIGHTING MEASURES

### Suitable extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

### Unsuitable extinguishing media

Do not use water jet.

### Specific hazards arising from the chemical

In a fire or if heated, a pressure increase will occur, and the container may burst.

### Hazardous thermal decomposition product

Decomposition products may include the following materials: carbon dioxide, carbon monoxide

### Special protective actions for fire-fighters

# SAFETY DATA SHEET

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training

## Special protective equipment and precautions for firefighters

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## SECTION 6.0

## ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

#### For emergency responders

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

### Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and materials for containment and cleaning up

#### Small spill

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

#### Large spill

Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## SECTION 7.0

## HANDLING AND STORAGE

### Precautions for safe handling

#### Protective measures

Put on appropriate personal protective equipment (see Section 8).

#### Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove

# SAFETY DATA SHEET

contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures

## Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

<b>SECTION 8.0</b>	<b>EXPOSURE CONTROLS/PERSONAL PROTECTION</b>
--------------------	--

## Exposure controls

Component	Exposure Limits		
Distillates (petroleum), hydrotreated heavy naphthenic	<b>ACGIH TLV (United States, 3/2018)</b>	TWA	5 mg/m <sup>3</sup> 8 hours. Form: Inhalable fraction
	<b>OSHA PEL (United States, 5/2018)</b>	TWA	5 mg/m <sup>3</sup> 8 hours.
	<b>NISOH REL (United States 10/2016)</b>	TWA	5 mg/m <sup>3</sup> 10 hours. Form: Mist
		STEL	10 mg/m <sup>3</sup> 15 minutes. Form: Mist

## Engineering measures

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

## Environmental exposure controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Personal protective equipment

### Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

### Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields

### Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

### Body protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

### Other skin protection

# SAFETY DATA SHEET

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## Respiratory protection

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

<b>SECTION 9.0</b>	<b>PHYSICAL AND CHEMICAL PROPERTIES</b>
--------------------	---

<p><b>Physical state</b></p> <p><b>Color</b></p> <p><b>Odor</b></p> <p><b>Odor threshold</b></p> <p><b>pH</b></p> <p><b>Melting point</b></p> <p><b>Initial boiling point and boiling range</b></p> <p><b>Flash point</b></p> <p><b>Evaporation rate</b></p> <p><b>Flammability (solid, gas)</b></p> <p><b>Lower and upper explosive (flammable) limits</b></p> <p><b>Vapor pressure</b></p> <p><b>Vapor density</b></p> <p><b>Relative density</b></p> <p><b>Solubility</b></p> <p><b>Partition coefficient n-octanol/water</b></p> <p><b>Auto-ignition temperature</b></p> <p><b>Decomposition temperature</b></p> <p><b>Viscosity, Kinematic</b></p> <p><b>Flow time (ISO 2431)</b></p> <p><b>Pour Point</b></p>	<p>Liquid. ---	---

<b>SECTION 10.0</b>	<b>STABILITY AND REACTIVITY</b>
---------------------	---------------------------------

### Reactivity

No specific test data related to reactivity available for this product or its ingredients.

### Chemical stability

The product is stable.

### Possibility of hazardous reactions

Under normal conditions of storage and use, hazardous reactions will not occur.

### Conditions to avoid

No specific data.

### Incompatible materials

# SAFETY DATA SHEET

No specific data.

## Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11.0

## TOXICOLOGICAL INFORMATION

### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Distillates (petroleum), hydrotreated heavy naphthenic	LC <sub>50</sub> Inhalation Dusts and mists	Rat	5.7 mg/l	4 hours
	LD <sub>50</sub> Dermal	Rabbit	>2000 mg/kg	-
	LD <sub>50</sub> Oral	Rat	>5000 mg/kg	-

### Irritation/Corrosion

Not available

### Sensitization

Not available

### Mutagenicity

Not available

### Carcinogenicity

Not available

### Conclusion/Summary

The classification as a carcinogen need not apply as it can be shown that the substance contains less than 3 % DMSO extract as measured by IP 346.

### Reproductive toxicity

Not available.

### Teratogenicity

Not available.

### Specific target organ toxicity (single exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

### Aspiration hazard

Not available.

### Information on the likely routes of exposure

Routes of entry not anticipated: Oral, Dermal, Inhalation.

### Potential acute health effects

#### Eye contact

No known significant effects or critical hazards.

#### Inhalation

No known significant effects or critical hazards.

#### Skin Contact

No known significant effects or critical hazards.

#### Ingestion

No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

#### Eye contact

No specific data.

# SAFETY DATA SHEET

## Inhalation

No specific data.

## Skin Contact

No specific data.

## Ingestion

No specific data.

## Delayed and immediate effects and also chronic effects from short- and long-term exposure

### Short term exposure, Potential immediate effects

Not available

### Short term exposure, Potential delayed effects

Not available

### Long term exposure, Potential immediate effects

Not available

### Long term exposure, Potential delayed effects

Not available

## Potential chronic health effects

Not available

## General

No known significant effects or critical hazards.

## Carcinogenicity

No known significant effects or critical hazards.

## Mutagenicity

No known significant effects or critical hazards.

## Teratogenicity

No known significant effects or critical hazards.

## Developmental effects

No known significant effects or critical hazards.

## Fertility effects

No known significant effects or critical hazards.

## Numerical measures of toxicity

Not available

## SECTION 12.0

## ECOLOGICAL INFORMATION

### Ecotoxicity

Product/ingredient name	Result	Species	Exposure
Distillates (petroleum), hydrotreated heavy naphthenic	Acute EC <sub>50</sub> >100 mg/l	Algae	72 ours
	Acute EC <sub>50</sub> >100 mg/l	Crustaceans	48 hours
	Acute LC <sub>50</sub> >100 mg/l	Fish	96 hours

### Persistence and degradability

Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
Distillates (petroleum), hydrotreated heavy naphthenic	-	-	Inherent

### Bioaccumulative potential

Not available.

### Soil/water partition coefficient (K<sub>oc</sub>)

Not available

# SAFETY DATA SHEET

## Other adverse effects

No known significant effects or critical hazards.

## SECTION 13.0

## DISPOSAL CONSIDERATIONS

### Disposal instructions

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## SECTION 14.0

## TRANSPORT INFORMATION

### DOT

Not regulated

### TDG

Not regulated

### IATA

Not regulated

### IMDG

Not regulated

### Special precautions for user

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

### Transport in bulk according to Annex II of MARPOL, 73/78 and the IBC code

Not available

## SECTION 15.0

## REGULATORY INFORMATION

### US Federal regulations

#### TSCA 8(a) CDR Exempt/Partial exemption:

All components are listed or exempted.

#### Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)

Not listed

#### Clean Air Act Section 602 Class I Substances
