

SAFETY DATA SHEET

SECTION 1.0	PRODUCT AND COMPANY IDENTIFICATION
--------------------	---

Product Identifier

UNIPAR® 60 TOM

Recommended use (identified)

Base oil

Uses Advised Against

This product must not be used in applications other than those listed in Section 1 without first seeking the advice of the supplier.

Manufacturer/Importer/Supplier/Distributor Information

 UniSource Energy, LLC.
 40 Shuman Blvd, Suite 290
 Naperville, IL 60563

E-mail

orders@unisource-energy.com

Telephone number

Phone: 630-470-6030 Fax: 630-470-6031

Emergency telephone number

SECTION 2.0	HAZARD(S) IDENTIFICATION
--------------------	---------------------------------

United States (US)

According to: OSHA 29 CFR 1910.1200 HCS

Classification of the Substance or Mixture
OSHA HCS 2012

Aspiration 1

GHS Label Elements
Hazard pictograms

Signal word
DANGER
Hazard statements

May be fatal if swallowed and enters airways.

Precautionary Statements
Response

 IF SWALLOWED: Immediately call a POISON CENTER/doctor. Do NOT induce vomiting.
 Do NOT induce vomiting.

Storage/Disposal

SAFETY DATA SHEET

Store locked up.

Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

HCS 2012 Other Information

Repeated exposure may cause skin dryness or cracking.

Used oil may contain harmful impurities.

Hazards not Otherwise Classified

Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

Other Information

SECTION 3.0

COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture

Material does not meet the criteria of a mixture.

CAS Number

Chemical Name	%	CAS number
Hydrotreated light paraffinic petroleum distillate	100	64742-55-8

The highly refined mineral oil contains <3% (w/w) DMSO-extract, according to IP346. The chemical nature of the substance is highly refined mineral oil.

SECTION 4.0

FIRST AID MEASURES

Description of Necessary First Aid Measures

Eye contact

In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.

Inhalation

Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.

If signs/symptoms continue, get medical attention.

Skin contact

SAFETY DATA SHEET

In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove clothing and wash thoroughly before use. If irritation develops and persists, get medical attention.

Ingestion

If any of the following delayed signs and symptoms appear within the next 6 hours, transport to the nearest medical facility: fever greater than 101° F (38.3°C), shortness of breath, chest congestion or continued coughing or wheezing. Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.

Most Important Symptoms, Acute and Delayed

Refer to Section 11 – Toxicological Information

Indication of Immediate Medical Attention and Special Treatment Needed, if Necessary

Notes to physician

All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

SECTION 5.0

FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

LARGE FIRE: Water spray, fog or regular foam.

SMALL FIRES: Dry chemical, CO₂, water spray or regular foam.

Unsuitable Extinguishing Media

Do not use water in a jet.

Unusual Fire and Explosion Hazards

No data available.

Hazardous Thermal Decomposition Products

Hazardous combustion products may include: A complex mixture of airborne solid and liquid particulates and gases (smoke). Carbon monoxide may be evolved if incomplete combustion occurs. Unidentified organic and inorganic compounds.

Advice for Firefighters

Structural firefighters' protective clothing will only provide limited protection. Wear positive pressure self-contained breathing apparatus (SCBA).

SECTION 6.0

ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Personal precautions

Do not walk through spilled material. Slippery when spilt. Wear appropriate personal protective equipment, avoid direct contact.

Emergency procedures

Keep unauthorized personnel away. Stay upwind.

Environmental Precautions

Avoid run off to waterways and sewers.

Methods and Materials for Containment and Cleaning Up

Stop leak if you can do it without risk.

SAFETY DATA SHEET

Small spill

Take up with sand or other non-combustible absorbent material and place into containers for later disposal

Large spill

Dike far ahead of liquid spill for later disposal.

SECTION 7.0

HANDLING AND STORAGE

Precautions for Safe Handling

Handling

Use only with adequate ventilation. Wear appropriate personal protective equipment, avoid direct contact. Avoid breathing mist, vapors and/or spray. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. When handling product in drums, safety footwear should be worn, and proper handling equipment should be used. Properly dispose of any contaminated rags or cleaning materials in order to prevent fires.

Conditions for Safe Storage, including any incompatibilities

Keep container tightly closed. Store in a cool, well-ventilated place. Use properly labeled and closable containers.

SECTION 8.0

EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits

Ingredient name	Exposure limits	
Hydrotreated light paraffinic petroleum distillate	ACGIH	5 mg/m ³ TWA (excluding metal working fluids, inhalable fraction) as Mineral oil, highly and severely refined

Appropriate Engineering Controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Environmental Exposure controls

Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.

Individual Protective Measures, such as Personal Protective Equipment

Eye/Face protection

Wear protective eyewear (goggles, face shield, or safety glasses).

Skin/Body protection

Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374, US: F739) made from the following materials may provide suitable chemical protection. PVC, neoprene or nitrile rubber gloves Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, dexterity.

Respiratory protection

SAFETY DATA SHEET

In case of insufficient ventilation, wear suitable respiratory equipment. Where air filtering respirators are suitable, select an appropriate combination of mask and filter. Select a filter suitable for combined particulate/organic gases and vapors [Type A/Type P boiling point >65°C (149°F)] meeting EN14387 and EN143.

SECTION 9.0	PHYSICAL AND CHEMICAL PROPERTIES
--------------------	---

Physical form	Liquid
Appearance/Description	Clear liquid with a slight hydrocarbon odor.
Color	Clear
Odor	Slight hydrocarbon.
Odor threshold	No data available.
pH	No data available.
Melting point/freezing point	No data available.
Initial boiling point	> 280°C (> 536°F)
Flash point	> 170°C (> 338°F) COC (Cleveland Open Cup)
Evaporation rate	No data available.
Flammability (solid, gas)	Not applicable.
Lower and upper explosive (flammable) limits	No data available.
Vapor pressure	< 0.0005 kPa @ 20°C(68°F)
Vapor density	No data available.
Specific gravity/Relative density	0.9 @15°C (59°F) Water=1
Water Solubility	Negligible
Partition coefficient n-octanol/water	No data available.
Auto-ignition temperature	> 320°C (> 608°F)
Decomposition temperature	No data available.
Kinematic Viscosity @ 104°F (40°C)	9 to 11 Centistoke (cSt, cS) or mm ² /sec

SECTION 10.0	STABILITY AND REACTIVITY
---------------------	---------------------------------

Reactivity

No dangerous reaction known under conditions of normal use.

Chemical Stability.

Stable under normal temperatures and pressures.

Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

Conditions to Avoid

Extremes of temperature and direct sunlight.

Incompatible Materials

Strong oxidizing agents.

Hazardous Decomposition Products

Hazardous decomposition products are not expected to form during normal storage.

SECTION 11.0	TOXICOLOGICAL INFORMATION
---------------------	----------------------------------

SAFETY DATA SHEET

Information on Toxicological Effects

GHS Properties	OSHA HCS 2012 Classification
Acute toxicity	Classification criteria not met.
Skin corrosion/Irritation	Classification criteria not met.
Serious eye damage/Irritation	Classification criteria not met.
Skin sensitization	Classification criteria not met.
Respiratory sensitization	Classification criteria not met.
Aspiration Hazard	Aspiration 1
Carcinogenicity	Classification criteria not met.
Germ Cell Mutagenicity	Classification criteria not met.
Toxicity for Reproduction	Classification criteria not met.
Specific Target Organ Toxicity - Single Exposure	Classification criteria not met.
Specific Target Organ Toxicity - Repeated Exposure	Classification criteria not met.

Potential Health Effects

Inhalation

Acute (Immediate)

If material enters lungs, signs and symptoms may include coughing, choking, wheezing, difficulty in breathing, chest congestion, shortness of breath, and/or fever.

Chronic (Delayed)

No data available.

Eye

Acute (Immediate)

Expected to be slightly irritating.

Chronic (Delayed)

No data available.

Ingestion

Acute (Immediate)

Material may be aspirated into lungs during ingestion and/or subsequent vomiting. Aspiration of this material will cause severe lung injury, chemical pneumonitis, pulmonary edema or death.

Chronic (Delayed)

No data available.

Carcinogenic Effects

Product contains mineral oils of types shown to be noncarcinogenic in animal skin painting studies. Highly refined mineral oils are not classified as carcinogenic by the International Agency for Research on Cancer (IARC).

SECTION 12.0

ECOLOGICAL INFORMATION

Toxicity

Expected to be practically nontoxic fish. Expected to be practically nontoxic to daphnia and other aquatic invertebrates. Expected to be practically nontoxic to algae.

Persistence and Degradability

Expected to be inherently biodegradable.

Bioaccumulative Potential

Has the potential to bioaccumulate.

Mobility in Soil

SAFETY DATA SHEET

Liquid under most environmental conditions. If it enters soil, it will adsorb to soil particles and will not be mobile.

Other Adverse Effects

Ecotoxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the ecotoxicology of similar products.

SECTION 13.0

DISPOSAL CONSIDERATIONS

Disposal Instructions

Product waste

Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste

Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

SECTION 14.0

TRANSPORT INFORMATION
